## A Requested claim, decision, and authorization

## B Representation: no authorized relation

## C Projection, gates, witness, and remediation

GATES, WITNESS, REMEDIATION

**Provenance:** complete
**Specification persistence:** not evaluated
**Uncertainty / dependence:** not established / not established
**Fallback projection:** none
**Projected object:** none
**Projection provenance:** none

- Missing required evidence alternative: causal-identification.
- The governed object types do not match the requested claim.

Supply a causal-identification design with a named method, assumptions, estimand, and diagnostics; intervention may be the design subtype.
